A bright person can always think of something better to do than housework. —Ruby Lou Barnhill

Let's face it: Cleaning isn't fun for everyone. Some people love it - others, not so much. Yet, no matter which side of the fence you fall on, it all has to get done. But it's way too easy to overlook even basic things until it gets to the "oh holy wow - that needs done NOW" phase.

Hopefully this planner will help you get all that done and eliminate the holy wows of cleaning. I've found that with a plan, all things go faster & easier, and that includes cleaning. Give me a checklist, and I can always whip through the tasks much faster than simply trying to think of all the things as I go.

No matter if you're a cleaning ninja or a reluctant housekeeper, we can all agree that life just goes easier when all the things are neat and clean. Can I get an amen?
